### Argument Hard to Answer.

Many a native of the Hawaiian Islands has a precarious knowledge of English, picked up from every source imaginable, and of which he is inclined to be proud. He airs it with and without provocation, and occasionally with startling effect, as the wife of the visiting missionary discovered. She said to the man-of-all-work: "I suppose you have no cows in these islands." "No cow? How — get milk no got cow?"

### It's Rented.

In a particularly desolate region of the country, two travelers came on a tumble-down shack in the midst of stilt and barrenness. They were discussing the improbability of human beings living there and did not see a forlorn little boy sitting in the edge of the weeds. He arose with a proud flush on his face. "Ye needn't make fun of it. Tain't ours. It's jest rented!"

### Use for the Broken Clock.

If a small clock is beyond repair do not throw it away. An excellent idea is to set it aside to be used in case of illness. It will be found just the thing to place in the sick room to indicate the next time for taking medicine. As each dose is given to the patient turn the hands to the hour when the following dose is to be given. In this way all danger of errors is eliminated.

### The Unexpected.

Amateur Photographer (touring in the country):—"Pardon me, sir, but would you object to my taking your daughter just as she is?" Farmer Green—"Well, this is sudden; but take her, and be happy. Keep yer eyes on him, Sal, till I scoot round for the parson."

### Sure, Don't Interrupt.

"What right have you got to object to the question that lawyer asked me? You don't know what I was going to answer," a witness in a damage suit in the court of a justice of the peace yelled when one attorney objected to a question asked the witness by the other attorney.

### Device Takes Place of Nets.

One way of catching herring is by driving nails into a board so that they stick out several inches. The boards are then dragged through the shoals and the fish catch between the nails and are pulled by the boardful into the boats. In one year more than 1,000, 700 pounds of herring were caught at Prince Rupert and frozen by the cold storage plants to be sold for bait. Something like 125,000 pounds of cod fish are annually taken for the same purpose.—The Christian Herald.
